The 2023 ELLAK International Conference
“Literary Inquiry as 21st Century Vocation: Reclaiming Aesthetics, Criticism and Pedagogy”

- Organized by The English Language and Literature Association of Korea (ELLAK)
- Venue: Hanyang University, Seoul, South Korea
- Date: December 15th-16th, 2023

With the theme of “Literary Inquiry and the Practice of Criticism,” ELLAK 2023 returns to fundamental questions about the present and future of literary studies. Our purpose is to offer a forum for collective reflection on what constitutes literary inquiry and how the practice of criticism—the work we do as scholars and writers—engages its objects of study and interacts with the wider world. What counts, or should count, as expertise in our discipline (and the humanities more generally)? Are there better ways of imagining criticism as a vocation? How has literary studies, based traditionally on the print medium, adapted to new media forms and the globalization of cultural circulation? What is the relation between aesthetic judgment and political commitment, if any? To what extent should critical practice adjust to ever-proliferating pressures (such as climate crisis, the advent of AI, institutional malaise) and how? What is the role of humanist thinking, the liberal arts, and the university in an age of wall-to-wall commercialization and technologization? We welcome papers that instantiate original thought and critical practice as well as those that explicitly take on criticism as a subject.

- Application submission: **September 25, 2023 ~ October 15, 2023**
- Abstract submission: **October 23, 2023 ~ November 19, 2023**
